DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story high, three bay wide house is in the center of a row of twenty-one similar houses. All are built of brick laid in running bond, with marble base, stoop, belt course and sills. All have gently sloping flat roofs.

The entrance is on the left. Three marble steps are set to the left of two rectangular basement windows, below the belt course. At the first floor level the entranceway is filled with a wood and glass door, with a large central pane of glass surrounded by numerous smaller lights. The door is surmounted by a segmental arched transom.

All window openings are segmental arched and filled with double hung windows with 1/1 lights. All have splayed brick lintels. The continuous wooden cornice is supported on four brackets, with a row of dentils and a lower string of molding defining a brick freize.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

104 W. Clement Street is an excellent example of late Victorian, brick and marble, working class Baltimore housing. Its proportions are quite excellent, and it can be accepted as a standard by which to judge other period housing. Nearly all original exterior elements remain.
